### **DETAILED ACTION**

1. This office action is in response to amendment filed December 22, 2004.

#### ***Election by Original Presentation***

2. Newly submitted claims 27-59 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The canceled claim 1 recites limitations such as a memory access unit coupled to the hierarchical memory system capable of processing a plurality of memory access instructions that includes a first instruction that specifies first address and first value, and second instruction that specifies the first address. The newly presented claims 27-59 recites limitations such as a processor for use with a shared memory system, and implementing an instruction set architecture that comprises: a first class instruction to access a local memory without requiring coordination of data updates, and second class of instructions which require coordination of data updates in the memory address space between the local memory and the shared memory system.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 27-59 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

3. The amendment filed on December 22, 2004 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-

Art Unit: 2188

responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because (See paragraph 2).

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
